

Care Instruction

Ceramic kitchen counter tops are very scratch- and heat-resistant.

Make sure not to drop sharp and heavy objects on the counter top in order to prevent cracks. Furthermore, the material is fairly brittle on the edges.

1 Daily cleaning

AKEMI® Crystal Clean Spray

► the cleaner for every day

- Multi-purpose cleaning spray for daily use. pH-neutral, leaves no stripes and dries quickly.
- Can also be used for cleaning of vitro-ceramic stoves, glass, plastics, stainless steel and fittings.

1. Shake before use, then open spray valve.

2. Spray surface to be treated evenly.

3. Clean surface with a clean and dry cloth.

- In case of heavy soiling we recommend AKEMI® Techno Ceramic Intensive Cleaner or specialized cleaners (more information at www.akemi.com).

2 Intensive Cleaning

AKEMI® Techno Ceramic Intensive Cleaner

► for a quick and powerful cleaning

- Ready-for-use cleaning product for the removal of profound and/or encrusted soilings on ceramic surfaces as well as for cleaning of stainless steel sinks. Available in a handy spray bottle.
- Intensive cleaning of food remnants, slight oil and grease stains as well as thin layers of care and protection products and rubber.

1. Spray surface to be treated evenly.

2. Spread with a damp cloth or sponge and allow to work. Do not allow to dry!

3. Remove dirt with a damp cloth and rinse with water. Wipe dry with a clean, lint-free cloth until streaks or film are no longer visible.

- In case of heavy soiling reapply AKEMI® Techno Ceramic Intensive Cleaner in larger quantity and let it soak for 5 to 10 minutes. If necessary use a brush.
- For normal soilings and daily care use AKEMI® Crystal Clean.

The recommended AKEMI-products are provided with a foodsafe certificate! They have been carefully selected, tested in our laboratory and meet highest requirements.
